Fictional sample resume created for demonstrating SmartHire.

SUMMARY

Third-year B.Tech Information Technology student interested in data science and machine learning. Comfortable building small end-to-end projects in Python and presenting results clearly to teammates.

EDUCATION

B.Tech in Information Technology, Savitribai Phule Pune University (2023 - 2027). CGPA: 8.4/10

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript
Libraries: Pandas, NumPy, Scikit-learn, Matplotlib
Web and Tools: HTML, CSS, Flask, Streamlit, Git, GitHub, Jupyter
Databases: MySQL, SQLite
Fundamentals: Data Structures, Algorithms, OOP, DBMS, Operating Systems

PROJECTS

Student Performance Predictor - Built a regression model with Scikit-learn on a public dataset of 1,000 student records. Performed data cleaning and feature engineering with Pandas and compared three models using cross-validation. Visualised results with Matplotlib.

Expense Tracker Web App - Developed a Flask application with MySQL to log and categorise expenses. Implemented REST endpoints and wrote simple unit tests. Used Git for version control across a team of 3.

Movie Review Sentiment Analysis - Applied text preprocessing and TF-IDF with logistic regression to classify 5,000 reviews; reached 86% accuracy on a held-out test set.

INTERNSHIP

Python Intern, local startup (4 weeks) - Automated weekly Excel reports using Python scripts, reducing manual effort for the team. Collaborated with two developers and presented findings to the manager.

CERTIFICATIONS AND ACHIEVEMENTS

Python for Data Science certificate (NPTEL). Finalist in college hackathon 2025. Strong problem solving and communication skills.
